No. 12(3)-T.B./55.—The Tariff Commission has submitted its Report on the continuance of protection to the Glucose Industry on the basis of an enquiry undertaken by it under section 11(e) and 13 of the Tariff Commission Act, 1951. Its recommendations are as follows:—

- (3) The Indian Standards Institution should endeavour to finalise the standard specifications for glucose and dextrose as early as possible.
- (4) In order to prevent unnecessary imports, it should be verified in consultation with Central Food Technological Research Institute whether the higher specifications adopted by Corn Products Company (India) Limited, (the principal importers) are essential to meet the genuine requirements of consumers of this country.

PUBLIC NOTICE

IMPORT TRADE CONTROL

New Delhi, the 22nd November 1955

SUBJECT:—Export Promotion Scheme.

No. 65-ITC(P.N.)/55.—Attention is invited to para. I(g) of Appendix XXIII of the Red Book, which provides that applications under the Export Promotion Scheme will be entertained only once a quarter.

2. It has been represented that orders for embroidering crests and insignias from abroad, though small in number, are likely to be received in India, with the cloth on which the crests are to be worked, more often than once in a quarter and that a strict enforcement of this provision is likely to be difficult and detrimental to the Export Promotion Scheme. In view of this it has been decided that applications for import licences in respect of item No. 30 of the table annexed to Appendix XXIII of the Red Book, will be entertained more often than quarterly as a special case, provided the goods to be imported are required for the export of embroidered crests and insignias under this scheme.

J. BYRNE,

Chief Controller of Imports & Exports.
